

JATEC

The Joint Analysis, Training and Education Centre (JATEC) is as a key enabler of NATO–Ukraine cooperation, a driver of operationally informed innovation, and a catalyst for interoperability.

We accelerate experimentation, deepen information exchange, and embed Ukrainian operational experience into NATO's transformation agenda.

The decision to establish JATEC in Bydgoszcz, Poland was endorsed by the heads of state and government at the Washington Summit in 2024.

NATO–Ukraine

**Joint Analysis,
Training and
Education Centre**

Our Mission

- gather insights from the war against Ukraine
- provide recommendations for NATO and Ukraine to transform
- promote interoperability between NATO and Ukraine

Unique Organisation

- JATEC is the first joint NATO–Ukraine organization in the NATO Command Structure and looks at both military and civilian aspects of the modern conflict
- Subordinated to Allied Command Transformation, it serves as a bridge between NATO and Ukraine to promote innovative solutions and long-term benefits for both

No longer a concept!

- JATEC is a functional NATO–Ukraine engine for turning hard-won operational insight into practical change, strengthening interoperability and accelerating adaptation where it matters most

What we do?

- Systematically identifying emerging battlefield trends in the modern conflict
- Integrating operational insights from Ukrainian subject matter experts
- Applying structured analytical methods to put data into a NATO context
- Providing structured reports, studies, and recommendations to support NATO's and Ukraine's transformation

How we do it?

- Creating Communities of Interest.
- Addressing both military and civilian aspects of the modern conflict (total defence, resilience)
- Driving operationally informed innovation (Innovation Challenges).
- Developing solutions that enhance collective training and education.
